Market Urself | Built a full stack application collaborating with other partners developers during the General Assembly Program . We use Python , Django, PostgreSQL , Materialize , Heroku and other technologies .

[Visit Market Urself](#)

True-Fitness App | Developed a full stack application utilizing technologies such as Node JS , Express , MongoDB/Mongoose , OAuth . It's a practical application where users can share log their recipes and workouts on the app [Visit True-Fitness](#)

Match Two Cards! | Built a functional Memory Card game with standard HTML, JavaScript, CSS . Deck containing 12 cards which are *shuffled* and placed face-down on the board . The players take turns to reveal two cards. [Click here to play Match Two Cards](#)

Other Experience

Real Estate Sales Associates at Florida Homes Realty and Mortgage

October 2021 - January 2023

As a former real estate agent , I developed valuable skills in data and trend analysis making use of various software tools such as Matrix , RPR , Remine Pro and many others . Leveraging analytical thinking and problem-solving to help clients make informed decisions when problems emerge on a transaction .

Communication skills also have been essential in understanding and meeting users' expectations , using applications like Zoom , Slack and Google Meet to collaborate with clients and colleagues seamlessly , even when working remotely . Which has honed my skills in teamwork and collaboration .

Incorporating CRM , FormSimplicity and other platforms to facilitate transactions and provide clients with personalized attention and support . Managing my time effectively , granted me to juggle multiple priorities and meet deadlines . I'm confident these skills will be instrumental in my success as a software engineer.

EDUCATION

General Assembly Software Engineering Immersive Program
